Matrox Graphics announces TripleHead upgrade kit for Millennium P650 graphics card

TripleHead upgrade kit permits users to drive three displays and features fan-less design for silent operation - critical for sound production

Montreal, Canada, January 15th, 2004—Matrox Graphics Inc., the leading manufacturer of professional graphics solutions, is pleased to announce a new TripleHead upgrade kit for the Millennium P650 graphics card, extending the single display and DualHead® capabilities of this 64 MB graphics board to revolutionary TripleHead Desktop mode. The new upgrade kit includes a DVI-to-dual HD-15 cable and TV output connector, along with a special utility for enabling TripleHead and Dual-display plus TV output functionality with the Millennium P650. This unprecedented solution offers audio professionals tremendous support by providing desktop space to extend multiple audio tracks across one, two or three displays and a fan-less design for silent operation, a crucial component in sound production.

"Matrox has a history of producing productivity-enhancing multi-display graphics cards for workstation users and we're pleased to extend this support to audio professionals with the Millennium P650 and TripleHead upgrade kit," says Caroline Injoyan, product manager, Matrox Graphics. "Audio professionals have unique needs, requiring a quiet environment for music production and multi-display technologies for taking full advantage of their software. With the Millennium P650's silent operation and TripleHead upgrade kit, users can optimize their creative workflow - with no distractions."

The Millennium P650 is an advanced multi-display graphics card, featuring AGP 8X support and Matrox's highly awarded image quality and text clarity. Equipped with high-quality dual 400 MHz RAMDACs, the Millennium P650 provides flicker-free analog resolutions of up to 1920 x 1440 on each display and powerful space-saving dual-DVI support for resolutions up to 1600 x 1200 on each digital flat panel. Featuring DualHead, dual-DVI and optional TripleHead support, the Millennium P650 provides a wealth of desktop real estate for enhanced audio workflow and reduced clutter. Stable and reliable drivers are provided for Microsoft® Windows® XP, Windows® 2000 and Windows NT®.

"Matrox's advanced multi-display graphics cards are the perfect solutions for Steinberg customers looking to extend the capabilities of their virtual studio," says Charly Steinberg, general manager, Steinberg Media Technologies GmbH.

Pricing and availability

The Millennium P650 is available at an ESP of \$169 US, directly from the Matrox online store at: <http://shopmatrox.com> or through authorized dealers.
