New Matrox Graphics 1.4.5 Linux Drivers Provide Enhanced Features for Thin Client Users

Montreal, Canada, August 21, 2007 — Matrox Graphics, the leading manufacturer of multi-display graphics solutions for professionals, introduces new 1.4.5 Linux drivers providing enhanced features and additional support to its Matrox [EpicA TC2](#) and [EpicA TC4](#) multi-display graphics cards for thin computing. These new drivers include support for 32- and 64-bit RedHat and SUSE distributions, X.Org up to version 7.2.0, and kernel versions up to 2.6.20. These drivers also include compatibility with rdesktop 1.4.1 and Citrix ICA Client 9.x and 10.x for Linux. Additionally, an enhanced graphical user interface (GUI) application that facilitates multi-display configuration is now available for HP t5725 thin clients integrated with EpicA TC2 or EpicA TC4 graphics cards.

“With the ever-increasing importance of Linux in corporate computing strategies, this new driver release reaffirms our commitment to providing Linux users with greater compatibility and ease of use,” says Mohamed Jivraj, product manager, Matrox Graphics.

With its unique and innovative hardware and software features, EpicA technology has been [qualified by leading thin client manufacturers](#) including HP, Neoware, IGEL, BOSaNOVA, Compumaster-Praim, and Liscon.
