## **Go Wider with Matrox TripleHead2Go Digital Edition**

### **New widescreen modes provide maximum triple-display desktop space for gaming enthusiasts and professionals**

**Montreal, Canada, August 5, 2008/PRNewswire** - Matrox Graphics announces new triple widescreen modes for the TripleHead2Go Digital Edition: 3x1680x1050 and 3x1440x900. The new modes allow gaming enthusiasts and professionals to benefit from the advantages of widescreen technology across an astonishing desktop set-up.

*"With TripleHead2Go, users can now drive three widescreen monitors from a single system,"* says Caroline Injoyan, Business Development Manager, Matrox Graphics. *"The ultra-wide desktop gives gamers a maximum field-of-view for an unrivaled gaming experience and professionals a vast desktop for managing multiple applications."*

The expanded playing area provides gaming enthusiasts with extra pixel space to view wider interactive scenes for a competitive advantage during game play. What's more, the additional onscreen information in a widescreen Surround Gaming™ set-up creates a heightened level of immersion for a more enjoyable gaming environment.

*"TripleHead2Go offers us an amazing panoramic setup on any system in the blink of an eye,"* remarks Marek Spánel, CEO, Bohemia Interactive. *"Seeing brand new game worlds spread out to the far corners of your view is quite simply, stunning."*

Professional workstation users can also benefit from a triple-widescreen desktop-less scrolling, toggling, and re-sizing of windows significantly enhances efficiency and increases overall productivity by ensuring all the information they need is conveniently at their fingertips.

### **Availability & Compatibility**

The new TripleHead2Go widescreen modes-enabled by connecting the TripleHead2Go to the system's dual-link DVI connector-are available with select NVIDIA® and ATI® GPUs running under Microsoft® Windows® XP and Windows® Vista™ operating systems.
